The new Enterprise Licensing and Single Sign-On for Turning Technologies will be implemented the week of August 13, 2018. Setup and usage instructions will be updated by the end of the week and will be uploaded to these pages.

TurningPoint by Turning Technologies is the campus-supported personal response system for classroom polling. TurningPoint is a hybrid polling option that provides secure management of courses, rosters, and assessment data while integrating with Canvas. The hybrid polling offers polling from your computer...
Using with Canvas

- I haven’t done this yet… as the materials were released after this presentation was given. I hear that canvas can be used for taking attendance and for tracking responses should you wish to grade activities that you do in class.
