How to Review the Results

• Compare numeric results to previous results and semester means
• Identify strong & weaker items
  – Consider in relation to primary objectives
• Review written comments in light of numeric results
  – Look for patterns
  – Avoid focusing on isolated, irrelevant, or unprofessional comments

How to Use the Results

• Determine 1 or 2 areas for improvement
  – Determine ways to develop these areas
• Summarize in written or tabular form for use in future promotion, tenure, or award applications
• Look for improvement next year!
