Minimally-Invasive SCOPING COURSE
AN IMMERSIVE GUIDE FOR THE SPECIALIST

THIS UNIQUE COURSE INCLUDES:
• A comprehensive syllabus and instructional videos on scope care
• ~16 hours of online training and assessments
• Hands-on dry, cadaver and live animal laboratories for optimal learning and mastery of the material

PARTICIPANTS WILL LEARN:
• Flexible and rigid scope anatomy, handling and cleaning
• Laser physics, handling and safety
• Cystoscopy and lithotripsy
• Rhinoscopy
• Bronchoscopy
• Upper and lower gastrointestinal endoscopy
• ± Laparoscopy
• Associated advanced procedures

SPRING COURSE
ONLINE TRAINING
Dec. 19, 2018 - March 18, 2019
HANDS-ON LABORATORIES
March 19 - 23, 2019

SUMMER COURSE
ONLINE TRAINING
June 13 - August 12, 2019
HANDS-ON LABORATORIES
August 13 - 16, 2019

This course is designed to meet the needs of small animal internal medicine residents and specialists desiring in-depth scope training. Offered by The University of Tennessee College of Veterinary Medicine with the support of Karl Storz Veterinary Endoscopy.
# Minimally-Invasive Scoping Course

## ONLINE TRAINING
Each topic will be presented online in a series of 15- to 30-minute modules that may be replayed individually for integration into the typical clinician’s busy lifestyle. Information covered includes equipment required, case selection and anesthetic considerations, procedural techniques, tips and tricks, and complications. After each topic is completed, a quiz will be given to assess the participant’s learning. The online training portion is completed by the participant at his/her own pace.

## ONLINE TRAINING MUST BE COMPLETED BEFORE LABS

### Held at the University of Tennessee
College of Veterinary Medicine
in Knoxville, Tennessee
