CEM Research Seminar Series

Spring 2015
Mondays 12:00-1:00pm
Veterinary Medicine Building, Sequoyah Room

Jan 26, 2015
Helen A. Baghdoyan, Ph.D. (Host: Dr. Reza Seddighi)
“Animal Models Contribute to Understanding the Neurobiology and Pathophysiology of Human Sleep”
Beaman Professor
Co-Director of Anesthesiology Research
Professor of Psychology and Anesthesiology, University of Tennessee, Knoxville
Joint Faculty, Oak Ridge National Laboratory

Feb 2, 2015
Dr. Ralph Lydic (Host: Dr. Reza Seddighi)
"Obese rodents exhibit some features of human metabolic syndrome"
Robert H. Cole Professor of Neuroscience
Associate Chair for Research, Anesthesiology
Professor of Anesthesiology and Psychology, University of Tennessee
Joint Faculty, Oak Ridge National Laboratory

Feb 9, 2015
Ms. Misty Bailey (Host: Dr. Seung Baek)
“Contemporary Issues in Science Writing: Considerations for Authors”
Science Editor & CEM Coordinator
College of Veterinary Medicine, University of Tennessee

Feb 16, 2015
Open

Feb 23, 2015
Dr. Doris D'Souza (Host: Dr. David Bemis)
“Foodborne Noroviruses: Global Health Concerns”
Associate Professor
Food Science & Technology Department
College of Agricultural Sciences and Natural Resources, UT Institute of Agriculture

Mar 2, 2015
Dr. Madhu Dhar (Host: Dr. David Anderson)
“Large Animal Regenerative Medicine Program: Where were we? Where are we now? Where do we want to be?”
Associate Professor, Laboratory of Regenerative Medicine
Large Animal Clinical Sciences
College of Veterinary Medicine, University of Tennessee
Mar 9, 2015
Stephen P. Ford, PhD (Host: Dr. Brynn Voy)
“Fetal Programming”
Professor and Rochelle Endowed Chair
Director, Center for the Study of Fetal Programming
Department of Animal Science, University of Wyoming

Mar 16, 2015
Spring Break (no seminar)

Mar 23, 2015
Dr. Gang Yu (Dr. Xuemin Xu)
“FUS Transgenic Mice: Roles in Cellular Degeneration”
Associate Professor
Department of Neuroscience, University of Texas Southwestern Medical Center

Mar 30, 2015
Dr. Bob Hendricks (Host: Dr. Barry Rouse)
“Pathogenesis and Control of Herpetic Lesions in the Nervous System and Visual Track”
Joseph F. Novak Professor and Vice-Chair for Research
Director, Ophthalmology & Visual Sciences Research Center
Departments of Ophthalmology, Immunology, Microbiology and Molecular Genetics
University of Pittsburg School of Medicine

Apr 06, 2015
Dr. Vincent Perreten (Host: Dr. Stephen Kania)
"Multidrug-resistant bacteria: A new challenge in veterinary medicine"
Professor
Institute of Veterinary Bacteriology
University of Berne, Switzerland

Apr 13, 2015
Dr. Adam Birkenheuer (Host: Dr. Katie Tolbert)
Associate Professor, Internal Medicine
Department of Clinical Sciences
College of Veterinary Medicine, North Carolina State University

Apr 20, 2015
Dr. Kayla Bayless (Host: Dr. Mei-Zhen Cui)
Associate Professor
Department of Molecular and Cellular Medicine
Texas A&M University Health Science Center
