2407 River Drive | Knoxville, TN 37996

Improve your confidence in caring for emergent patients!

This conference will provide valuable information and procedure practice to better triage emergency cases and will contribute to positive patient outcomes. You will gain hands-on experience of many emergency procedures including nasal oxygen tubes, nasogastric feeding tubes, central lines, thoracocentesis, and chest tube placement. Presentations will be delivered by UTCVM Emergency & Critical Care faculty, residents, and veterinary technicians.

All veterinary professionals are encouraged to register, regardless of emergency experience!

7:30 - 8:00 am	CONFERENCE CHECK-IN
8:00 am - 2:30 pm	LECTURES including roundtable sessions during lunch
11:30 am - 12:30 pm	LUNCH/ROUNDTABLE
2:30 - 4:30 pm	LAB

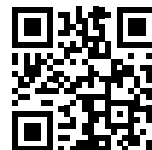

Topics for 2026 Include:

- Toxicology
- CPR
- ER Analgesia
- Small Farm Animals
in the Small Animal ER
- Brachycephalic Challenges
