University of Tennessee Knoxville uses Canvas as their Learning Management System. If you are not already logged in, you need to click on the LTI link in Canvas. Once that is done, come back here to see the courses you want to use.

Canvas Sign In

Quick Start Guide

Adding a Course

1. Click the Sign in button in Available Courses.
2. Sign into Canvas, locate the LTI link and click on it.
3. Click the sign in button to display your available courses.
4. Click "+ Connect" on any courses you want to use.
5. Log into TurningPoint or Enter your course and start creating your content.

The skin from which animal is favored for use as shields?

- A. Cats
- B. Giraffes
- C. Humans
- D. Pigs
- E. Cows
- F. Sharks

The first word that pops into your head...

A word cloud of recreational activities. The words are arranged in a loose, organic shape. The largest word is 'video games' in red. Other large words include 'kayaking' in green, 'hiking' in orange, and 'swimming' in teal. Smaller words include 'bungee jumping', 'running', 'rock climbing', 'weight lifting', 'jogging', and 'ice fishing'. The colors of the words are consistent with their respective activities: green for water sports, red for games, orange for land sports, and teal for swimming.

kayaking

bungee jumping
running

rock climbing

video games

weight lifting

jogging
ice fishing

hiking

swimming

TurningPoint by Turning Technologies is the campus-supported personal response system for classroom polling. TurningPoint is a hybrid polling option that provides secure management of courses, rosters, and assessment data while integrating with Canvas. The hybrid polling offers polling from your computer

Using with Canvas

- I haven't done this yet... as the materials were released after this presentation was given. I *hear* that canvas can be used for taking attendance and for tracking responses should you wish to grade activities that you do in class.
