Re: AAHA Accreditation

To Whom It May Concern,

The University of Tennessee, College of Veterinary Medicine is fully accredited by the American Animal Hospital Association. The accreditation includes the anatomic pathology laboratory services within the Department of Biomedical and Diagnostic Sciences.

Our faculty currently includes seven board-certified (American College of Veterinary Pathologists) anatomic pathologists. All surgical biopsy and necropsy submissions are examined by one of the board-certified pathologists, or by a resident under their direct supervision.

We have three full-time histology technicians under the supervision of a board-certified pathologist.

Please do not hesitate to contact us if you have any questions or need any additional information.

Sincerely,

Kim Newkirk, DVM, PhD, DACVP
Professor and Director of Anatomic Pathology
College of Veterinary Medicine
University of Tennessee
