

Equine Performance & Rehabilitation Center

REHABILITATE • RECOVER • RENEW

The UT Equine Performance & Rehabilitation Center offers comprehensive programs designed to help horses achieve their maximum level of physical function and performance.

Individualized equine rehabilitation and conditioning programs are designed and overseen by a veterinarian board-certified in both Equine Surgery and Veterinary Sports Medicine and Rehabilitation.

Our team includes a board-certified veterinary sports medicine and rehabilitation clinician, equine surgeons, radiologists, cardiologists, anesthesiologists and internal medicine specialists who have access to premier facilities and on-site diagnostic laboratories.

We offer:

- Comprehensive lameness evaluations
- Diagnostic imaging capabilities (including MRI and CT)
- Cardiovascular evaluations
- Respiratory evaluations (including dynamic upper respiratory endoscopy during exercise)

Our Center also provides integrated therapeutic modalities including:

- Acupuncture
- Chiropractics
- Saltwater cryotherapy
- Free walker exerciser
- Hyperbaric oxygen therapy
- Shock wave therapy
- Solarium
- Therapeutic exercise
- Therapeutic laser and ultrasound
- Underwater treadmill
- Whole body vibration therapy

In addition, the UT Equine Performance & Rehabilitation Center has an on-site podiatry service staffed by an experienced certified and registered journeyman farrier.

Dr. Tena Ursini, DVM, DACVSMR, PhD • Dr. Sandro Colla, DVM, MS, DACVSMR
 Dawn Phillips LVMT, CERP • Jeremy Davis CJF, (Equine Podiatry Services)
 Zoe Stoloff, LVMT
