What to Expect: Dentistry & Oral Surgery

EVALUATION APPOINTMENT INFORMATION & GUIDELINES

INITIAL APPOINTMENT INFORMATION
A consultation is required for the planning of any treatment. To make the most out of your first visit, please make sure that we have received all the required referral documents. During the consultation appointment we will perform a thorough oral assessment, a general physical examination and review the medical record to determine the best treatment plan for your pet.

Arrive early to allow your pet to walk outside the hospital and become more relaxed and comfortable with the unfamiliar environment. Upon your first arrival to UTCVM Small Animal Hospital, check in at the front desk and one of the Dentistry and Oral Surgery Service team members will meet you there. The consultation appointment takes approximately 1 hour.

An additional visit will be scheduled if further treatments or procedures are necessary. For your pet’s comfort and safety, our team of boarded anesthesiologists will provide general anesthesia for all procedures requiring cleaning, radiographs or surgical intervention.

PROCEDURE DAY INFORMATION
On the procedure day, please arrive to the Small Animal Hospital front desk by 7:30 am. A deposit will be collected prior to the procedure. Our Dentistry and Oral Surgery team member will provide you with the estimated procedure schedule and the discharge time. Normally, our patients are able to go home between 3:30-4:30pm the day of the procedure, however, in some cases we offer an overnight observation to make sure your pet is comfortable and pain-free. We will supply all the necessary medications to take home. The clinician or technician will review the discharge instructions that explains the procedure, postoperative care and will discuss follow-up care. We will then guide you to the front desk to finalize your bill and schedule a follow-up appointment, if needed.

COMMUNICATIONS
We will need to know the optimal way to contact you during the time your pet is in the teaching hospital and for followup recommendations. In order to optimize communication pathways, outgoing call numbers are typically blocked, so you will need to be able to be reached at a phone that accepts blocked calls.

All information from your pet’s visit with the Dentistry and Oral Surgery Service at UTCVM Veterinary Medical Center is shared with your primary veterinarian. Please ensure that we have the correct information regarding your pet’s primary and referring veterinarians.

FINANCIAL POLICY
The financial policy of the hospital requires full payment form the entire bill when your pet is discharged from the hospital. If your pet stays overnight, you will be required to submit half of the total expected cost as a deposit. We accept major credit cards, Care Credit, cash or check as forms of payments.

AGGRESSIVE ANIMALS
Aggressive animals needing medical or surgical care may be seen on a case-by-case basis and only with approval of the clinician in charge. Because appointments with aggressive animals must be coordinated with our Behavior Service, consultation with the service chief and your veterinarian is required. An additional professional fee will be applied for animals requiring assistance from the Behavior Service.

CANCELLATION POLICY
Missed appointments are inconvenient to our current and future patients. Please call us (865-974-8387) at least 24 hours in advance if you are unable to make your scheduled appointment. UTCVM is located in the Eastern Time Zone.
DENTISTRY & ORAL SURGERY PRE-APPOINTMENT CHECKLIST

- Please have your primary veterinarian forward vaccination history to UTCVM prior to your appointment. Vaccinations must be up to date prior to the appointment unless there is a specific medical reason that your pet cannot be vaccinated.

- For the initial visit, you may feed your pet as usual. Withhold food after midnight the night before the procedure appointment unless otherwise indicated by your veterinarian (e.g., pets with low blood sugar). Water can be given up to the time of appointment.

- If your pet is diabetic, specific instructions will be provided at the initial appointment.

- Bring all medications that your pet is currently taking to your appointment.

- Give the morning medication as usual (if needed, a small amount of food can be used to administer medication).

- Bring copies of pertinent lab test results, medical records and all radiographs (films) from your current and previous veterinarians, including specialists, to the initial appointment or have your veterinarian(s) send them prior to the appointment. Digital images may be emailed to vetclientservices@utk.edu

- If you have any pet insurance you want us to file, please bring the forms with you.

  **Please note that all pets should be brought to the Veterinary Medical Center on a leash or in a pet carrier.**

Thank you for choosing UTCVM Veterinary Medical Center for your pet’s care. We look forward to meeting you!
