STATEMENT OF FINANCIAL POLICY

UNIVERSITY OF TENNESSEE - VETERINARY MEDICAL CENTER

At the University of Tennessee Veterinary Medical Center, we endeavor to render each patient the best possible medical treatment at the lowest possible cost. Therefore, the following financial policies will be strictly enforced:

1. A deposit in proportion to the estimated cost is required upon hospital admission.
2. Payment in full is due upon discharge of the patient.
3. Payments can be made by: Cash, Check, Care Credit, American Express, Discover, MasterCard or VISA.
4. A \$30.00 Service Fee will be charged on all returned checks.

Please direct all inquiries to (865) 974-5661

AGGRESSIVE ANIMAL POLICY

DEPARTMENT OF LARGE ANIMAL CLINICAL SCIENCES

Animals are sometimes presented to our hospital that are impossible to handle without exposing our faculty, staff and students or our patients to unacceptable risk of injury. In these patients satisfactory examination and treatment cannot be performed without reducing the quality of care that we can provide. Hospitalization and treatment must be done in a safe environment. This policy was instituted for that purpose.

1. Any aggressive, unmanageable animal may be denied admission to the hospital. The final decision concerning hospitalization of an aggressive animal will be made at the discretion of the senior clinician of the clinical service.
2. Owners should be informed and the medical record documented that the animal is or could potentially be dangerous to other animals, the owner, or other people.
3. If a known aggressive animal is admitted at the discretion of the senior clinician, the owner will be asked to sign a statement of liability regarding their animal.
4. Any incident of aggressive behavior will be recorded in the animal's record and the owner informed.
5. UTCVM reserves the right to dismiss from further diagnostics and treatment and refuse further service to animals that display unmanageable or aggressive behavior. The client is responsible for any and all charges up to the time treatment is terminated.
